Who Should Attend This Class?

Any individuals who, while involved in conducting maintenance activities, have responsibility for placement and/or maintenance of work zone traffic control devices. This would include all maintenance-level personnel, crew leaders, and public works personnel.

This is a Fee-Based Training

VRWA Members: \$125.00
Non-Members: \$150.00

The registration fee covers the cost of the instructor, all course materials, continental breakfast, and lunch.

Course Description

Federal DOT Regulations are requiring that by July 1, 2009, all state and local government employees whose job-related tasks and/or decisions involve the placement or maintenance of work zone traffic control devices must receive DOT-approved training in order to perform those duties. This class has been designed to provide individuals with the training needed to properly install work zones for performing daily maintenance or short-term operations. Topics covered will include the basics of work zone traffic control, work zone devices, and how to effectively install and maintain them. At the conclusion of this class, a short, open-book, written exam will be administered to all attendees. A VDOT-issued training card will be mailed to each attendee who achieves a passing grade of 80% or higher.

About The Instructor

Mark A. Norris is a Circuit rider for the Virginia Rural Water Association (VRWA). He provides training and technical assistance in the areas of water utility operation and management to city, town, and county public utilities and public works departments throughout the Commonwealth of Virginia. Mr. Norris' background includes 11 years of OSHA and Work Zone experience.

Cancellation Policy: Full refund (less \$25.00 administrative fee) will be given if VRWA is notified at least *10 days* prior to date of class. No refunds will be given for cancellations with less than 10 days notice; substitutions, however, are permitted.
