## **VRWA Has a New Wastewater Technician Opening**

**VRWA has been awarded a second wastewater technician grant which opens up a position with our team. So come join us!**

### **Requirements –**

- ✓ Multi-year employment required in working for, operating, maintaining, or managing a rural/community wastewater system
- ✓ Well-rounded technical knowledge of rural and small system needs and methods of meeting those needs
- ✓ Technical knowledge of operating, maintaining and managing a rural/community water/wastewater system
- ✓ An understanding of budget/financial conditions
- ✓ Ability to communicate effectively, orally and in writing, with operators, decision makers, regulatory, agencies and other professionals
- ✓ Knowledge and understanding of regulations, monitoring and reporting requirements
- ✓ Willingness to travel extensively

### **Responsibilities –**

- ✓ Assist a minimum of 30 wastewater systems per month
- ✓ Provide on-site assistance geographically around the state
- ✓ Provides assistance in all areas of operations, maintenance, management, vulnerability assessment, security, loan applications, health and environmental issues
- ✓ Provide the type of assistance that offers “training” rather than “fixing”
- ✓ Prioritize requests to ensure coverage of wastewater/systems with serious health/or economic problems first
- ✓ Develops informational articles for dissemination
- ✓ Responds to inquiries from facilities, consumers, government agencies and others regarding technical matters.

**Excellent benefits** – health, dental insurance packets, 401K, plus more....Work from your home, VRWA provides the necessary tools to complete your duties and responsibilities. Salary - DOQ
